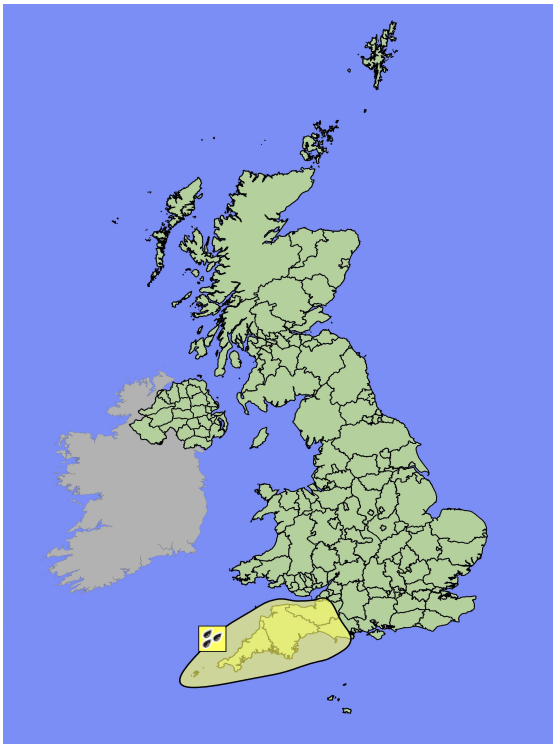
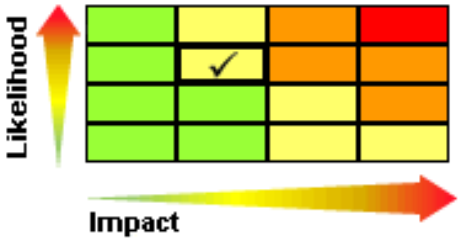
# National Severe Weather Warning Service





**Chief Forecasters Assessment**
There is a continuing trend towards a slower northeastwards progression of the frontal system bringing the next area of rain, with the Alert now removed from Sunday. However, there remains a risk of an additional 10-20 mm and isolated 30 mm of rain during Monday, particularly across Cornwall and Devon. leading to localised flooding, especially where the ground is saturated due to recent wet weather.

Given the uncertainty over the detail, the Public are advised to monitor forecasts closely and visit the web site for any updates.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **00:00 on Mon, 08th Oct 2012** until **23:59 on Mon, 08th Oct 2012**

Further spells of rain, some heavy, are expected to affect more southwestern parts of England during Monday.

Following the recent wet conditions, the public should be aware of the risk of further localised flooding.
